Background

In June of 2017, after two years of research, the Police Department selected and implemented the Axon body worn and in-car video system. The cameras and Axon software have been a tremendous benefit to both the community and the Village. The cameras are necessary for the Village to maintain transparency and accountability in public safety interactions while helping to protect the Village and its employees in liability mitigation and complaint resolution. The Body worn and in car videos have provided invaluable video evidence utilized for 372 prosecutions in the year 2021 alone. Video is also utilized to help improve patrol response and identify areas needing additional officer training. Finally, with the passing of the Safe-T Act, all law enforcement agencies will be required, by law, to use officer worn body cameras.

The contract was reviewed by Attorney Larry LaLuzerne.

Axon System Performance

Of the 9 vendors and the equipment tested prior to the initial implementation, AXON was identified as the preferred vendor. Axon has maintained and expanded their position as an innovative industry leader in the field of both body worn cameras and other policing equipment. The Axon system is highly robust, user friendly, and integrates body/in car video, weapon activations, squad car operations, all photographic evidence (Axon Capture), external video/surveillance footage, and use of the Taser using the evidence.com platform. Integration, robustness, and ease of use are all advantages Axon maintains over its competition. Product performance and reliability has been excellent and when needed, customer and technical support is first-rate.

Additionally, the Axon system was integrated with the CAD system to automatically categorize video based on retention categories defined by the agency according to state law and provides a convenient redaction feature when executing FOIA requests. The same end-to-end evidence management solutions of evidence.com allow prosecutors to manage evidence of any type, from any agency, all in one place. Axon and evidence.com is the preferred vendor of the Lake County States Attorney's Office and also utilized by the Village prosecutor for prosecution evidence sharing. A complete chain of custody is maintained, and all evidence is encrypted.

Axon is currently being used by many law enforcement agencies in Lake County, over 6,000 agencies nationwide, and is utilized in 85% of major cities.

What are we getting?

- AXON Body 3 Body Worn Cameras = 56. The body worn cameras will come with unlimited storage, warranty, support, and camera refresh.
- AXON Fleet In Car Camera System = 13. The fleet cameras also come with unlimited storage, 13 5G cradle points, warranty, support and camera refresh.
- Upgraded Tasers = 53. The Tasers include all training materials, instructor certification, and warranty.
- One source device management through Evidence.com with unlimited storage, records redaction assistant and Axon Capture.
